ABOUT US

Welcome to Ajani Industries.

Our milestone started from 7-Nov-2006. By the years of experience and broad thoughts of a dedicated & skillful team company can achieve its own name in the metal component industry. All the employees are aligned with the company goals which are well defined in terms of strategies.

Vision:

To continue making the best products in the metal component industry with standard and innovative ways.

We have good infrastructure to handle the manufacturing component requirements of our esteemed clients. The machines in the workshop we have are of enough capacity to fulfil the manufacturing requirements. We are well known company for our quality and delivery. So we assure you the healthy and long lasting business partnership.
